RAIN PROTECTION

YOUR EXTRA COMFORT

High wearing comfort and weather protection when you need it. ALBATROS® rainwear is so flexible that you can always move easily - wether at work or in leisure time.

HIGHLIGHTS

WATERPROOF

Welded zipper and stitches.

ADAPTABLE

Pants with elastic waist and drawstring.

COMFORTABLE

Long zippers on the lower leg, for easy entry and exit.

WE DON'T LEAVE YOU OUT IN THE RAIN

AQUALOCK

The degree of water tightness is measured in water column.

To identify the tightness, 10 cm² of the corresponding material is stretched under a cylinder and then exposed to water. The pressure on the material will be increased by 10 mm per second.

The time is measured until drops of water are formed on the bottom of the material. At the water column the pressure is measured at that time in millimeter.

According to the European standard a material is waterproof from 800 mm pressure.

**8.000 mm
WATER COLUMN**

POLYURETHANE

Waterproof, light, elastic, and tear-resistant even at sub-zero temperatures.

STRETCHMATERIAL

Ideal support fabric - lightweight, elastic and tear-resistant.

You can rely on the AQUALOCK rain protection range from ALBATROS® - be it on building sites or in agricultural environments, this rainwear will withstand the heaviest rain.

It is made of a high-quality polyurethane that is elastic and highly tear-resistant even at sub-zero temperatures and won't be unduly harmed by a scratch or two.

The polyurethane (PU) makes it reliably wind and waterproof, with a water column of 8,000 mm. The taped seams keep both rain and snow at bay. The perfect companion for rainy weather!

FORECAST JKT // PU-STRETCH RAIN JACKET

Art. No. 27.450.0

- flexible, lightweight stretch material, PU coated
- elastic with high tenacity even at subzero temperatures

THERMOGETIC LA // THERMO-FUNCTIONAL SHIRT

Art. No. 26.947.0

Material: 75% cotton, 25% polyester

Colour: anthracite (806)

Sizes: S - 2XL (5 - 9)

THERMOGETIC TRS // THERMO-FUNCTIONAL TROUSER

Art. No. 26.948.0

- hochelastischer, formstabiler, weicher Jersey, 210 g/m²
- tight fit
- with fly
- high thermal insulation due to brushed reverse
- fast drying, breathable
- a good moisture transport keeps the skin dry

Material: 75% cotton, 25% polyester

Colour: anthracite (806)

Sizes: S - 2XL (5 - 9)

HUSKY // KNITTED CAP

Art. No. 25.526.0

- double knitted in 1:1 rip
- two-tone with inside-out option
- compact type of knitting with high thermal insulation
- high elastic and hard-wearing
- woven label with logo on front

Material: 100% polyacrylic

Colour: black-combined (251)

Sizes: One Size

ONLY IN ASSORTMENS: 10 PIECES

black/blue: 5 pieces, black/orange: 5 pieces

FREEZEGUARD // KNITTED CAP

Art. No. 25.522.0

- compact double knitting with high thermal insulation
- high elastic and hard-wearing
- high-quality logo embroidery in contrasting colour

Material: 100% polyacrylic

Colour: grey (800), black (200)

Sizes: One Size

ONLY IN ASSORTMENS: 10 PIECES/COLOUR

ICEBREAKER // MICROFLEECE-GLOVES

Art. No. 25.066.0

- warm, soft microfleece
- Thinsulate® lining for maximum heat-insulation
- best heat storage
- fast drying, breathable and windrepellent
- elastic band at wrist for sheltered fit, elastic edges at the cuffs

Material: 100% polyester

Colour: black (200)

Sizes: S - 3XL

HIVIS THERMO // KNITTED CAP

Art. No. 25.525.0

- warm knitted rip
- Thinsulate® fleece lining
- reflective elements for better visibility

Material: 100% polyacrylic

Colour: yellow (700)

Sizes: One Size

ONLY IN ASSORTMENS: 10 PIECES/COLOUR

METAL BUCKLE WITH BOTTLE OPENER AT BACK SIDE

PADDOCK FLEX // BUCKLE BELT

Art. No. 23.106.0

- elastic fabric belt, width 4 cm
- metal buckle with bottle opener at back side
- nickel-free
- adjustable to individual length
- cut-to-fit belt
- embossed logo on the belt buckle

Material: 92% polyester, 8% elastane

Colour: black (200)

Length: 120 cm (cut-to-fit belt)

POLARGUARD // KNITTED CAP

Art. No. 25.524.0

- double knitted in 4:2 Rip with high thermal insulation
- striking two-coloured melange yarn
- high elastic and hard-wearing
- woven label with logo on front

Material: 100% polyacrylic

Colours: diverse (999)

Sizes: One Size

ONLY IN ASSORTMENS: 10 PIECES

4 pieces grey-black, 4 pieces blue-black & 2 pieces green-black

COLDLOCK CAP // MICROFLEECE-CAP

Art. No. 25.471.0

- warm microfleece
- Thinsulate® fleece lining
- with border

Material: 100% polyester

Colour: blue (300)

Sizes: One Size

COLDGUARD // KNITTED CAP

Art. No. 25.518.0

- warm knitted rip
- striking melange yarn
- Thinsulate® fleece lining
- high-quality logo embroidery

Material: 100% polyacrylic

Colours: green-black (620), grey-black (808)

Sizes: One Size

ONLY IN ASSORTMENS: 10 PIECES/COLOUR

EASKY // BASEBALLCAP

Art. No. 25.442.0

- light cotton blend quality
- ventilation holes ensure high wearing comfort
- circumferential sweatband for moisture absorption
- adjustable with velcro in the back

Material: 80% polyester, 20% cotton

Colour: black (202), blue (300), grey (800)

Sizes: One Size

ONLY IN ASSORTMENS: 10 PIECES/COLOUR

POWER // SOFTSHELL-BASEBALLCAP

Art. No. 25.423.0

- 3-layered softshell material with net at the back
- optimal ventilation through net material at the back of the head
- ventilation holes ensure high wearing comfort
- circumferential sweatband for moisture absorption
- adjustable with velcro in the back

Material: 96% polyester, 4% elastane

Colour: blue (300)

Sizes: One Size

ONLY IN ASSORTMENS: 10 PIECES

Sortiment 300: 5 pieces royal & 5 pieces marine

WINTER PRO // KNITTED CAP

Art. No. 25.519.0

- warm knitted rip
- contrasting stripes
- Thinsulate® fleece lining
- high-quality logo embroidery

Material: 100% polyacrylic

Colours: grey-black (808), green-black (620)

Sizes: One Size

ONLY IN ASSORTMENS: 10 PIECES/COLOUR

FROSTGUARD // KNITTED CAP

Art. No. 25.517.0

- warm knitted rip
- contrasting stripes
- Thinsulate® fleece lining
- high-quality logo embroidery

Material: 100% polyacrylic

Colours: black (200)

Sizes: One Size

ONLY IN ASSORTMENS: 10 PIECES/COLOUR

HARVESTER // STRAW HAT

Art. No. 25.530.0

- pure natural straw
- ideal shadow dispenser
- pleasantly light and breezy
- rips lining tape inside
- wide, sand colored ribbon

Material: 100% straw

Colour: nature (409)

Sizes: 55/56 - 61/62

ICEGUARD // MICROFLEECE-CAP

Art. No. 25.523.0

- heat-insulating microfleece
- folding ear- and neck protection
- width adjustable with elastic band in the back
- high quality PVC logo badge

Material: 100% polyester

Colour: grey-black (808)

Sizes: 57/58 - 61/62

ONLY IN ASSORTMENS: 10 PIECES

5 pieces black-grey 1/2/2 & 5 pieces grey-black 2/2/1

COLDLOCK BAND // MICROFLEECE-HEADBAND

Art. No. 25.473.0

- insulating, smooth microfleece
- protects against wind and cold

Material: 100% polyester

Colours: black (200), anthracite (806)

Sizes: One Size

TRILBY // STRAW HAT

Art. No. 25.505.0

- pure natural straw
- classic trilby form
- pleasantly light and breezy
- rips lining tape inside
- braided, two colored straw tape trimming

Material: 100% straw

Colour: nature (409)

Sizes: 54 - 61

WATER RESISTANT

BOGART // WOOLFELT HAT

Art. No. 25.792.0

- wool felt
- heat-insulating and water resistant
- protecting, wide brim
- rips lining tape inside
- classic leather tape trimming with brass button

Material: 100% wool

Colours: black (200), green (600)

Sizes: 55/56 - 61/62

3 PAIR = 1 PRICE

CONTROL TRIO // SNEAKER-WORKER SOCK

Art. No. 24.036.0

- durable cotton mix quality
 - extremely elastic and soft due to elasthane content
 - short shaft
 - flat seams for best wearing comfort without pressure marks
 - wide comfort band that does not cut
 - achilles tendon, heel, sole and toe area padded
 - comfortable terry sole
 - pack of 3 pairs in the colours black/grey, grey/blue and grey/orange
- Material:** 50% cotton, 38% polyester, 10% Viscose, 2% elastane
Colour: grey (800)
Sizes: 39/42, 43/46

2 PAIR = 1 PRICE

TEMPO DUO // LONG SHAFT WORKER SOCK

Art. No. 24.037.0

- durable cotton mix quality
 - extremely elastic and soft due to elasthane content
 - flat seams for best wearing comfort without pressure marks
 - wide comfort band that does not cut
 - achilles tendon, heel, sole and toe area padded
 - comfortable terry sole
 - 2 in a pack in colours black/grey and anthracite/black
- Material:** 67% cotton, 30% polyester, 3% elastane
Colour: black-grey (202)
Sizes: 39/42, 43/46

ARCTIC WOOL // SHEEP'S WOOL SOCK

Art. No. 24.093.0

- warm cotton mix quality
 - durable thanks to polyamide
 - elastic 1:1 rib
 - high-quality pure new wool prevents from sweaty feet
 - short shaft
 - wide comfort band that does not cut
- Material:** 70% wool, 15% polyamide, 15% viscose
Colour: grey (800)
Sizes: 39/40, 41/42, 43/44, 45/46, 47/48

NORWEGER SH // NORWEGIAN SHORT SOCK

Art. No. 24.092.0

- warm cotton mix quality
 - durable thanks to polyamide
 - classic elastic 3:1 rib
 - short shaft
 - wide comfort band that does not cut
- Material:** 70% wool, 15% viscose, 15% polyamide
Colour: grey (800)
Sizes: 39/40, 41/42, 43/44, 45/46, 47/48

GUARD // WORKER SOCK

Art. No. 24.140.0

- warm cotton mix quality
 - elastic, short shaft in 1:1 rib
 - padded zones in the heel and toe area
 - perfect for rubber boots or safety shoes
- Material:** 60% wool, 30% cotton, 10% polyester
Colours: grey (800), olive (615)
Sizes: 39/41, 42/44, 45/47

INNER SIDE WITH SOFT WOOL

THERMO CONTROL SH // SHORT BOOT SOCK

Art. No. 24.080.0

- temperature regulating, thermo-insulating and quick drying
 - keeps the feet always warm and dry, prevents the formation of blisters
 - end-to-end, warm wool plush surface prevents from sweaty feet
 - extremely hard-wearing due to outer polyamide layer
 - wide comfort band that does not cut
- Material:** Outside: 100% polyamide, Inside: 70% wool, 30% polyester
Colours: grey (800), green (600)
Sizes: 39/41, 42/44, 45/47, 48/52

INNER SIDE WITH SOFT WOOL

THERMO CONTROL LG // LONG SHAFT BOOT SOCK

Art. No. 24.090.0

- durchgehender, warmerer Wollplüsch
 - temperature regulating, thermo-insulating and quick drying
 - keeps the feet always warm and dry, prevents the formation of blisters
 - end-to-end, warm wool plush surface prevents from sweaty feet
 - extremely hard-wearing due to outer polyamide layer
 - wide comfort band that does not cut
 - ideal for hunting, fishing and all works outside
- Material:** Outside: 100% polyamide, Inside: 70% wool, 30% polyester
Colours: grey (800), green (600)
Sizes: 39/41, 42/44, 45/47, 48/52

SAFE & SOFT // ALLROUND SOCK

Art. No. 24.031.0

- durable cotton mix quality
 - extremely elastic and soft due to elasthane content
 - normal shaft
 - flat seams for best wearing comfort without pressure marks
 - wide comfort band that does not cut
 - padded zones over the toes, heel and shin
 - comfortable terry sole
- Material:** 80% cotton, 17% polyamide, 3% elastane
Colour: black-grey (202)
Sizes: 39/42, 43/46

WORK ESD // WORKER SOCK

Art. No. 24.038.0

- permanently electrostatic discharge (ESD) due to metal fibre
 - tested according to DIN EN 61340-4-3, certified as suitable to be worn in ESD shoes
 - temperature equalising thanks to 70% Thermolite®
 - polyester fibre
 - durable terry sole
 - midfoot strap for perfect fit
 - long high-heel for padding at the rear sealing edge of the shoe
 - under-toe plush protects from blisters and pressure marks
- Material:** 70% polyester (Thermocool®), 15% polyester, 8% polyamide, 5% metal fiber, 2% elastane
Colour: black (200)
Sizes: 39/41, 42/44, 45/47

SAFETY SHOES

WE CONCENTRATE ON THE
ESSENTIAL - YOUR SAFETY

As varied as the daily challenges you have to face. ALBATROS® safety shoes are designed and developed by an international team of experts for personal protection equipment (PSA). For more than 40 years we increase quality, comfort, functionality and design in the long term for your safety.

OVERVIEW

SAFETY SHOES

EN ISO 20345:2011 Safety footwear with protective toe cap for high loads that offer protection against impacts with an energy of up to 200 joules and withstand compression with up to 15,000 Newton.

Basic requirements e.g. tear strength and water-repellent properties of the upper as well as substance, tear strength, abrasion resistance, resistance to flex cracking and oil resistance of the outsole.
Can be with open seat region (Safety Basic - SB)

as SB, additionally closed seat region, antistatic properties and energy absorption of the seat region.

as SB, additionally to the basic requirements with closed heel area, antistatic, energy absorption of the heel area, fuel and oil resistant outsole and with penetration resistant midsole.

as SB, additionally to the basic requirements with closed heel area, antistatic, energy absorption of the heel area, fuel and oil resistant outsole and with penetration resistant midsole.

THE PRACTICAL LACING SYSTEM QUICK LOCK

Press, turn and the shoe sits perfectly on the foot - permanently. The precisely adjustable twist lock of the QUICK LOCK lacing system is as simple as it is ingenious. If you pull on the fastener, the laces come loose. Another advantage - operable with gloves.

UNLEASH THE POWER

WORKLETICS

reddot winner 2022

INDUSTRY | ASSEMBLY | TRANSPORT | LOGISTICS

1

WORKLETICS 3D SOLE

The core layer of the sole is the large pad made of PWR BEADS®, which extends far below the metatarsus. The upper layer, made of very light EVA material, provides dynamic cushioning with good stabilization at the same time. The right grip is guaranteed by the non-slip and abrasion-resistant, two-colour rubber outsole with wide flex grooves for optimum flexibility.

2

ACTIVE
ENERGY
RETURN

UP TO
58%

PWR BEADS® MIDSOLE

PWR BEADS® are literally baked together to form one element during the production process. Together they achieve an excellent energy return of 58%.

FAP® LITE - FLEXIBLE ANTI PENETRATION

The latest generation of metal-free penetration protections:

- 50% lighter
- very high flexibility
- better cushioning and pressure elasticity
- cooling effect through breathability and sweat absorption

EVERCUSHION® CUSTOM FIT MID FOOTBED

(Art. No. 20.485.0)

The anatomically shaped evercushion® CUSTOM FIT MID footbed provides optimal cushioning with every step. The specially coordinated arch support enables the natural positioning of the foot in the shoe and stimulates the muscles when walking. Also available in the retail pack in the Versions LOW and HIGH, for narrow ones or wide feet.

PWR BEADS®

3D TRIPLE DENSITY

ACTIVE ENERGY RETURN

UP TO
58%

1

LIGHTWEIGHT EVA MIDSOLE

Dynamic cushioning with good stabilization at the same time.

2

PWR BEADS® MIDSOLE

Top notch energy return of 58%. Particularly durable and dimensionally stable.

3

SLIP-RESISTANT RUBBER OUTSOLE

Perfect grip with wide flex grooves for optimal flexibility.

42% LESS JOINTS IMPACT*

* Dynamic energy absorption reduces the impact to 1.74 kN. The average for safety shoes is 3.0 kN.

ULTIMATE COMFORT DUAL IMPULSE

INDUSTRY | ASSEMBLY | TRANSPORT | LOGISTICS

1 SLIP RESISTANT OUTSOLE

The easy to clean rubber outsole ensures perfect ground contact. It is non-slip and abrasion resistant as well as heatresistant up to 300°C (HRO). The specially designed cleat profile and the wide flex grooves guarantee optimum flexion, optimize the water-displacing properties (windscreen wiper effect) and provide firm grip on a wide variety of grounds.

2 IMPULSE.FOAM® ANTI-FATIGUE TECHNOLOGY DUAL.IMPULSE MIDSOLE

The first safety shoe line with with a double-foamed, extremely light dual.IMPULSE midsole. The intelligent sole concept made up of two individual layers of IMPULSE.FOAM® offers everything: maximum cushioning with up to 55% active energy return as well as excellent stability and long-lasting comfort.

3 SAFETY KNIT® SAFETY KNIT

The highly flexible, breathable textile fabric adapts perfectly to your foot and fits seamlessly like a sock. It gives you optimal support, is super light and ultra durable at the same time.

FAP® - FLEXIBLE ANTI-PENETRATION

FAP® is a non-metallic material, especially for safety footwear, made of multiple textile layers of extremely tearproof fibers. The FAP® midsole offers greater comfort, flexibility, cold insulation, humidity absorption and shock absorption to the wearer.

COMFIT® AIR FOOTBED (Art. No. 20.475.0)

The extra comfort in your safety footwear. The breathable ALBATROS® comfit®AIR footbed has elevations in the heel and ball area of the foot as well as a support of the longitudinal arch. This helps the foot keeping its natural position in the shoe and stimulates the musculature while walking. The slip-resistant textile cover is odour-resistant, moisture absorbing and washable at 30°C.

Extra: ESD, metal free, breathable functional lining, comfortably-padded collar and dust tongue

Footbed: comfit®AIR
Sole: DUAL.IMPULSE - 300°C heat resistant, slip resistant rubber outsole with midsole of IMPULSE.FOAM® in two different densities for maximum cushioning, stability and comfort

AER55 IMPULSE BLACK BLUE LOW // S1P ESD HRO SRA
 Art. No. 64.750.0

Upper: SAFETY KNIT® with FITFRAME® elements
Extra: two pull-tabs for easy entry, extremely lightweight, TPU cap and heel protection against abrasion
Colour: black - blue (241)
Sizes: 36 - 47

AER55 IMPULSE BLACK BLUE QL LOW // S1P ESD HRO SRA
 Art. No. 64.750.2

Extra: QUICK LOCK lacing system
Sizes: 36 - 47

AER55 IMPULSE BLUE ORANGE LOW // S1P ESD HRO SRA
 Art. No. 64.751.0

Upper: SAFETY KNIT® with FITFRAME® elements
Extra: two pull-tabs for easy entry, extremely lightweight, TPU cap and heel protection against abrasion
Colour: blue - orange (329)
Sizes: 36 - 47

BREEZE IMPULSE LOW // S1P ESD HRO SRA
 Art. No. 64.752.0

Upper: Sandwich-Mesh with reinforcements
Extra: two pull-tabs for easy entry, extremely lightweight practical Speedlace lacing system, TPU cap and heel protection against abrasion
Colour: black - blue (241)
Sizes: 36 - 47

BREEZE IMPULSE QL LOW // S1P ESD HRO SRA
 Art. No. 64.752.8

Extra: QUICK LOCK lacing system
Sizes: 36 - 47

+ extra pair of cord laces
in the shoe box

ENERGY IMPULSE GREY LOW // S1P ESD HRO SRA
Art. No. 64.666.0

Upper: hard-wearing textile fabric with sandwich-mesh and FITFRAME® elements
Extra: extremely light, practical Speedlace lacing system
Colour: grey-black (808)
Sizes: 39 - 47

ENERGY IMPULSE LOW // S1P ESD HRO SRA
Art. No. 64.662.0

Colour: blue-black (351)
Sizes: 39 - 47

LIFT GREY IMPULSE LOW // S1P ESD HRO SRA
Art. No. 64.670.0

Upper: durable 3D-Mesh and FITFRAME®-elements
Extra: extremely light, closed dust tongue, TPU cap as protection against abrasion
Colour: grey-blue (826)
Sizes: 38 - 47

JETSTREAM IMPULSE LOW // S1 ESD HRO SRA
Art. No. 64.753.0

Protection: fiberglass toe cap
Upper: high-quality, breathable microfibre with abrasion resistant textile inserts
Extra: pull-tab for easy entry, practical velcro, extremely light, TPU cap against abrasion
Colour: black - blue (241)
Sizes: 36 - 47

LIFT BLUE IMPULSE LOW // S1P ESD HRO SRA
Art. No. 64.661.0

Upper: durable 3D-Mesh and FITFRAME®-elements
Extra: extremely light, closed dust tongue, TPU cap as protection against abrasion
Colour: black-blue (000)
Sizes: 39 - 47

ULTIMATE IMPULSE OLIVE LOW // S1P ESD HRO SRA
Art. No. 64.673.0

Upper: SAFETY KNIT®
Extra: extremely light, ELASTIC FIT stretchable slip-on closure for ultimate wearing comfort, smooth upper surface without exposed elements, TPU cap and heel protection against abrasion with reflecting elements
Colour: black-olive (259)
Sizes: 38 - 47

LIFT RED IMPULSE LOW // S1P ESD HRO SRA
Art. No. 64.660.0

Upper: durable 3D-Mesh and FITFRAME®-elements
Extra: extremely light, closed dust tongue, TPU cap as protection against abrasion
Colour: black-red (210)
Sizes: 39 - 47

ULTIMATE IMPULSE BLACK LOW // S1P ESD HRO SRA
Art. No. 64.672.0

Upper: SAFETY KNIT®
Extra: extremely light, ELASTIC FIT stretchable slip-on closure for ultimate wearing comfort, smooth upper surface without exposed elements, TPU cap and heel protection against abrasion with reflecting elements
Colour: black (200)
Sizes: 38 - 47

VIGOR IMPULSE LOW // S3 ESD HRO SRA
Art. No. 64.650.0

VIGOR IMPULSE MID // S3 ESD HRO SRA
Art. No. 63.655.0

Upper: durable smooth full leather
Extra: closed dust tongue
Colour: black (200)
Sizes: 39 - 47

DYNAMIC - COMFORTABLE - UNCOMPROMISINGLY SAFE

DYNAMIC

INDUSTRY | ASSEMBLY | TRANSPORT | LOGISTICS

1

SLIP RESISTANT OUTSOLE

The abrasion-resistant, cushioning DUO-PU sole is particularly characterized by its flexibility and slip resistance. The sole profile has wide flex grooves and differently designed profile elements for excellent grip on different floors, especially on industrial floors.

2

CUSHIONING MIDSOLE

This soft PU midsole optimally cushions the high impacts of walking and combines perfect stability with flexibility.

FAP - FLEXIBLE ANTI-PENETRATION

FAP® is a non-metallic material, especially for safety footwear, made of multiple textile layers of extremely tearproof fibers. The FAP® midsole offers greater comfort, flexibility, cold insulation, humidity absorption and shock absorption to the wearer.

EVA FOOTBED

The anatomically shaped footbed made of soft EVA helps to protect the joints, muscles and bones with its shock-absorbing effect. An ergonomic longitudinal arch support provides optimal support for the foot when walking, while the dimpled forefoot area massages the front part of the foot with every step. The perforation in the ball area increases breathability. Everything for a comfortable fit.

FEATURES OF ALL STYLES

Protection: fiberglass toe cap and non-metallic, flexible FAP®-midsole (*except 64.878.0)
Extra: metal free, breathable functional lining, comfortably-padded collar and dust tongue

Footbed: anatomically formed and breathable EVA footbed
Sole: flexible, profiled, slip and abrasion resistant DUO-PU outsole

TRAIL INSPIRED. WORK READY.

XTS TRAIL

OUTDOOR | HANDWERK | BAU | INDUSTRIE

SLIP RESISTANT XTS TRAIL OUTSOLE

The easy-to-clean rubber outsole ensures perfect contact with the ground. It is non-slip and abrasion-proof and heat-resistant up to 300°C (HRO). The specially designed cleat profile and the wide flex grooves guarantee optimal flexion, optimize the water-displacing properties (windshield wiper effect) and provide a secure hold on a wide variety of surfaces.

IMPULSE.FOAM® MIDSOLE

The innovative IMPULSE.FOAM® midsole reacts to each of your steps with an energy impulse. IMPULSE.FOAM® offers everything: Maximum cushioning with optimum energy return as well as excellent stability and longlasting comfort.

FAP - FLEXIBLE ANTI-PENETRATION

FAP® is a non-metallic material, especially for safety footwear, made of multiple textile layers of extremely tearproof fibers. The FAP® midsole offers greater comfort, flexibility, cold insulation, humidity absorption and shock absorption to the wearer.

COMFIT® AIR FOOTBED (Art. No. 20.475.0)

The extra comfort in your safety footwear. The newly developed, breathable ALBATROS comfit® AIR footbed has elevations in the heel and ball area of the foot as well as a support of the longitudinal arch. This helps the foot keeping its natural position in the shoe and stimulates the musculature while walking. The slip-resistant textile cover is odour-resistant, moisture absorbing and washable at 30°C.

GREEN HEART®

REDUCE. REUSE. RECYCLE.

FOR A BETTER WORLD

red dot winner 2022

IMPROVE YOUR ECOLOGICAL FOOTPRINT!

The GREEN HEART Safety Shoe SPLENDID GH LOW is partly made from recycled PET bottles.

This saves new resources and significantly reduces the amount of waste. Of course we do not forgo modern, progressive design or comfort and do not compromise when it comes to safety.

SAFETY KNIT® GREEN UPPER

- made from recycled PET bottles
- high quality polyester fibers
- highly flexible and breathable
- lightweight and durable

EVERCUSHION® GREEN FOOTBED

- particularly environmentally friendly
- made from recycled foam and tear-resistant polyester fibers
- breathable and cushioning
- improves the flexing action of the foot

FAP® GREEN ANTI-PENETRATION

- environmentally friendly
- tear-resistant textile fibers made from PET bottles
- metal free, comfortable and flexible
- cold-insulating with a high level of moisture absorption

THE NEW WORK EXPERIENCE TREKSTAR XP

CRAFTS | CONSTRUCTION | ASSEMBLY | OUTDOOR

SLIP RESISTANT XTS OUTSOLE

The off-road profile of the up to 300°C heat-resistant, non-slip rubber outsole (HRO, SRC) ensures optimal ground contact, especially on unpaved surfaces. The wide studs clean themselves while running (mud release) and ensure maximum flexibility.

JOINT STABILISATION

The carbon-look joint stabilization runs around the heel, which additionally protects against ankle twisting and supports the position of the foot in the shoe.

QUICK LOCK

Press, turn and the shoe fits perfectly on the foot - permanently. The precisely adjustable twist lock of the QUICK LOCK lacing system is as simple as it is ingenious. If you pull on the fastener, the laces come loose. Another advantage - operable with gloves.

PRESS TO LOCK

TWIST TO FIX

PULL TO RELEASE

FAP - FLEXIBLE ANTI-PENETRATION

FAP® is a non-metallic material, especially for safety footwear, made of multiple textile layers of extremely tearproof fibers. The FAP® midsole offers greater comfort, flexibility, cold insulation, humidity absorption and shock absorption to the wearer.

EVERCUSHION® CUSTOM FIT MID FOOTBED

(Art. No. 20.485.0)

The anatomically shaped evercushion® CUSTOM FIT MID footbed provides optimal cushioning with every step. The specially coordinated arch support enables the natural positioning of the foot in the shoe and stimulates the muscles when walking. Also available in the retail pack in the Versions LOW and HIGH, for narrow ones or wide feet.

FEATURES OF ALL STYLES

Protection: fiberglass toe cap and non-metallic, flexible FAP® midsole
Extra: ESD, breathable functional lining, Quick Lock lacing system

Footbed: evercushion® CUSTOM FIT MID
Sole: TREKSTAR XP - 300° heat resistant, profiled, especially slip resistant, self-cleaning outsole with joint stabilisation in carbon optic

TOFANE BLACK QL CTX MID // S3 WR ESD HRO SRC

Colour: petrol (617)
Sizes: 40 - 47

DYNAMIC MULTI-TALENT

TREKSTAR WORK

CRAFT | INDUSTRY | LOGISTICS | OUTDOOR

XTS TREKSTAR OUTSOLE

The XTS outsole (cross terrain) is absolutely sure-footed. The self-cleaning sole profile with specially arranged and shaped studs adapts perfectly to the ground, ideal especially on unpaved surfaces. The hard-wearing TPU material is non-slip (SRC), antistatic and oil and petrol resistant. A shock absorber in the heel area ensures a softer step and protects the joints.

CUSHIONING MIDSOLE

A soft PU midsole optimally cushions the high impacts when walking and combines perfect stability and flexibility.

SCUFF CAP

Abrasion and scratch-resistant cap that protects the shoe from wear and tear, especially when kneeling, and thus extends its lifetime.

FAP - FLEXIBLE ANTI-PENETRATION

FAP® is a non-metallic material, especially for safety footwear, made of multiple textile layers of extremely tearproof fibers. The FAP® midsole offers greater comfort, flexibility, cold insulation, humidity absorption and shock absorption to the wearer.

EVERCUSHION® CUSTOM FIT MID FOOTBED

(Art. No. 20.485.0)

The anatomically shaped evercushion® CUSTOM FIT MID footbed provides optimal cushioning with every step. The specially coordinated arch support enables the natural positioning of the foot in the shoe and stimulates the muscles when walking. Also available in the retail pack in the Versions LOW and HIGH, for narrow ones or wide feet.

FEATURES OF ALL STYLES

Protection: fiberglass toe cap and non-metallic, flexible FAP® midsole
Extra: closed dust tongue, breathable 3D Mesh functional lining

Footbed: anatomically formed evercushion®
Sole: CUSTOM FIT MID footbed
 TREKSTAR – PU/TPU sole with scuff cap and shock absorber, flexible, cushioning and slip resistant

HIGHEST FLEXIBILITY WITH MAXIMUM PROTECTION

CRAFT^{HD}

CONSTRUCTION | INDUSTRY | ASSEMBLY | PRODUCTION

CRAFT^{HD} SOLE

Specially designed for the CRAFT^{HD} PU outsole with different and application-optimized profile elements. In addition, the improved grip and the optimal moisture-displacing profile (windshield wiper effect) ensure a secure hold.

CUSHIONING MIDSOLE

A soft PU midsole optimally cushions the high impacts when walking and combines perfectly stability and flexibility.

SHOCK ABSORBER

Directly embedded in the heel area this element absorbs impacts softly and preserves through soft cushioning ligaments and joints from injuries.

FAP - FLEXIBLE ANTI-PENETRATION

FAP® is a non-metallic material, especially for safety footwear, made of multiple textile layers of extremely tearproof fibers. The FAP® midsole offers greater comfort, flexibility, cold insulation, humidity absorption and shock absorption to the wearer.

COMFIT® RELAX MEMORY FOAM FOOTBED

(Art. No. 20.480.0)

The thermal foam of the COMFIT®RELAX footbed adapts individually to your foot shape through body heat and thus achieves an optimal pressure distribution over the entire tread surface. The foot is relieved and gets more support. After taking it off, the footbed returns to its original shape (memory effect). The textile cover used is robust, absorbent, washable at up to 30°C (hand wash) and quick drying. Perfect for the long working days!

FEATURES OF ALL STYLES

Protection: fiberglass toe cap and non-metallic, flexible FAP® midsole
Upper: greased full leather
Extra: DGUV, closed dust tongue, breathable functional lining, TPU HEEL SUPPORT

Footbed: COMFIT®RELAX Memory Foam footbed
Sole: CRAFT® - slip resistant DUO-PU outsole with scuff cap and shock absorbing element

ENDURANCE MID // S3 SRC

Colour: brown-black (493)
Sizes: 39 - 47

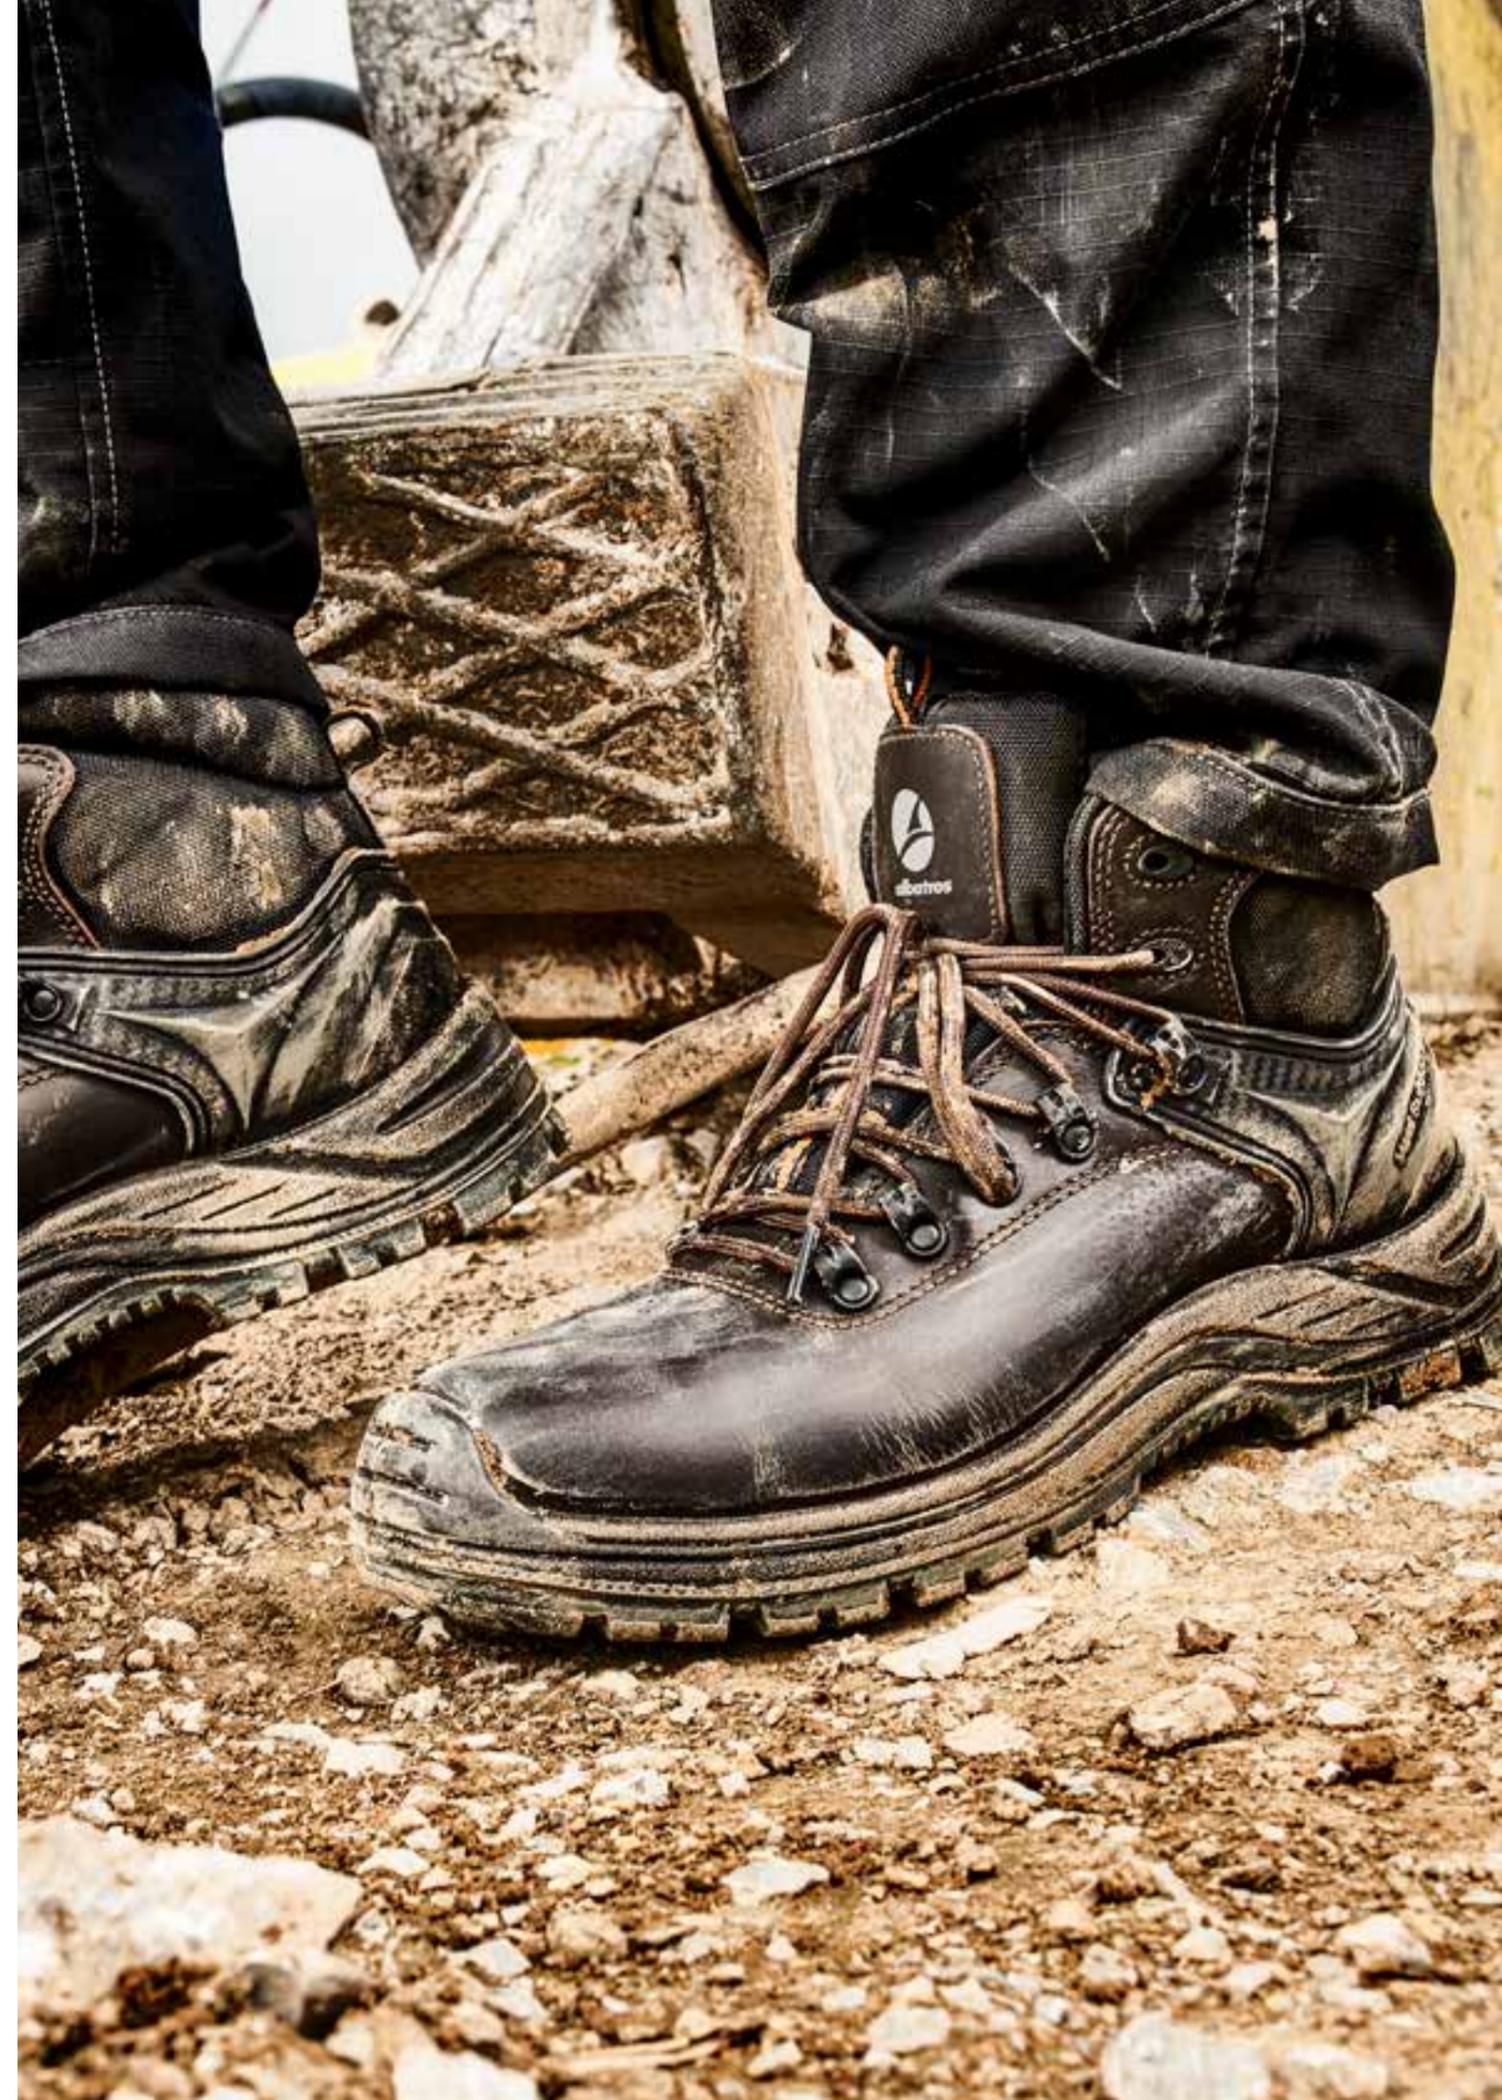

ENDURANCE LOW // S3 SRC
 Art. No. 64.135.0
Colour: brown-black (493)
Sizes: 39 - 47

RIGGER BOOT // S3 CI SRC
 Art. No. 63.150.0

Protection: steel toe cap and steel midsole
Upper: smooth full leather
Extra: warm lining, padded ankle area, side pull-on loops, anatomically formed footbed
Sole: slip and abrasion resistant Duo PU sole with scuff cap
Colour: brown (400)
Sizes: 40 - 47

CLASSIC FOR PROFESSIONALS

CLEAR TPU

INDUSTRY | CONSTRUCTION | ASSEMBLY | PRODUCTION

1

FLEXIBLE TPU-OUTSOLE

The depth of the sole profile improves the flexibility as well as the ground contact and has optimal liquid displacing properties. The high quality TPU is non-marking and resistant against abrasion.

2

CUSHIONING PU MIDSOLE

A soft and light PU midsole optimally cushions the high impacts when walking.

3

SHOCK ABSORBER

Directly embedded in the heel area this element absorbs impacts softly and preserves through soft cushioning ligaments and joints from injuries.

4

STEEL TOE CAP

The spacious fit ensures pleasant wearing comfort.

COMFIT® AIR FUSSBETT

(Art. No. 20.475.0)

The extra comfort in your safety footwear. The newly developed, breathable ALBATROS comfit® AIR footbed has elevations in the heel and ball area of the foot as well as a support of the longitudinal arch. This helps the foot keeping its natural position in the shoe and stimulates the musculature while walking. The slip-resistant textile cover is odour-resistant, moisture absorbing and washable at 30°C.

FEATURES OF ALL STYLES

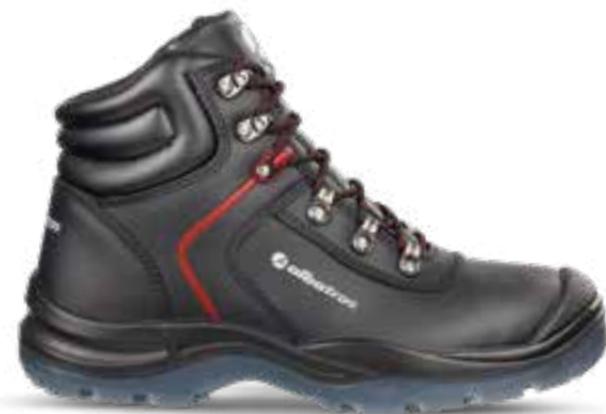

Protection: steel toe cap and steel midsole
Upper: smooth full leather
Extra: DGUV, closed dust tongue and collar of leather

Footbed: anatomically formed comfit® AIR footbed
Sole: CLEAR TPU - slip and abrasion resistant PU/TPU sole with scuff cap

GRAVITY CTX MID // S3 WR SRC
 Art. No. 63.112.0

Extra: functional lining with breathable and water resistant COA.TEX® membrane
Colour: black-yellow (263)
Sizes: 39 - 48

GRAVITATION MID // S3 SRC
 Art. No. 63.108.0

Extra: breathable 3D functional lining
Colour: black (200)
Sizes: 39 - 48

GRAVITATION LOW // S3 SRC

SPORT & TREKKING MEETS SAFETY

SPORT XTS

LOGISTICS | CRAFTS | OUTDOOR

XTS SOLE

Robust, up to 300°C heat resistant HRO rubber outsole (SRC) with differently formed profile elements that provide grip on various grounds and have self-cleaning properties. Oil and petrol resistant, antistatic.

EVA-MIDSOLE

The soft and extremely lightweight EVA midsole offers optimum cushioning in the heel and forefoot area, where most of the stress during walking arises and improves the flexing action of the foot.

TPU TORSION PROTECT ELEMENT

Specially developed to assist the foot at the sides and to support the natural movement of the foot.

FAP - FLEXIBLE ANTI-PENETRATION

FAP® is a non-metallic material, especially for safety footwear, made of multiple textile layers of extremely tearproof fibers. The FAP® midsole offers greater comfort, flexibility, cold insulation, humidity absorption and shock absorption to the wearer.

COMFIT® RELAX MEMORY FOAM FOOTBED

(Art. No. 20.480.0)

The thermal foam of the COMFIT®RELAX footbed adapts individually to your foot shape through body heat and thus achieves an optimal pressure distribution over the entire tread surface. The foot is relieved and gets more support. After taking it off, the footbed returns to its original shape (memory effect). The textile cover used is robust, absorbent, washable at up to 30°C (hand wash) and quick drying. Perfect for the long working days!

FEATURES OF ALL STYLES

Protection: fiberglass toe cap and non-metallic, flexible FAP® midsole
Extra: breathable functional lining

Footbed: anatomically formed comfit footbed
Sole: Sport XTS - 300°C heat resistant rubber outsole with TPU torsion protection

RUNNER XTS MID // S3 HRO SRC
 Art. No. 63.169.0

Upper: high-quality oiled nubuck leather
Extra: TPU toe cap protection against abrasion, reflecting stripe at the side, closed dust tongue, softly padded textile collar and dust tongue, TPU Heel Support system for more stability

Upper: leather with breathable Mesh
Extra: practical fast lacing system, TPU toe cap protection against abrasion
Colour: grey (800)
Sizes: 39 - 47

HEAVY DUTY FOR TOUGH JOBS

X-TREME

AGRICULTURAL INDUSTRY | CONSTRUCTION | ASSEMBLY

X-TREME CTX MID // S3 WR HRO SRC
Art. No. 63.175.0

Protection: steel toe cap and non-metallic, flexible FAP® midsole
Upper: Multishield® Leder
Extra: DGUV, closed dust tongue of calf leather, breathable functional lining COA.TEX® membrane, anatomically footbed, TPU heel protection

Sole: X-TREME - 300°C heat resistant, profiled, especially slip resistant nitrile/rubber outsole with scuff cap
Colour: black (200)
Sizes: 39 - 47

1

X-TREME SOLE

The "all terrain" cleat pattern made of nitrile rubber is designed to have good slip resistance (SRC) on smooth and uneven surfaces. The sole is also characterized by a polyurethane foamed comfortable midsole that provides underfoot cushioning and heel shock absorption. It is heat resistant to 300°C (HRO) and has a robust scuff cap.

2

MULTISHIELD

The special Multishield® leather is, when properly cared for, farmyard resistant, automotive fluid resistant, resistant to dilute acids and alkalis, water resistant and breathable, flame resistant and mold resistant.

FAP® - FLEXIBLE ANTI-PENETRATION

FAP® is a non-metallic material, especially for safety footwear, made of multiple textile layers of extremely tearproof fibers. The FAP® midsole offers greater comfort, flexibility, cold insulation, humidity absorption and shock absorption to the wearer.

3

HEEL SUPPORT

Dieser TPU Fersenschutz bildet mit der Nitril-/Gummisohle eine perfekt abgestimmte Funktionseinheit. Der Fersenschutz gibt zusätzlichen Schutz und Halt und verstärkt die Stabilität sowie die Führung des Schuhs.

4

SCUFF CAP

Abrasion and scratch resistant scuff cap protects the shoe from abrasion especially during kneeling position.

COA.TEX® MEMBRANE

The durable, water resistant and wind-proof high-tech membrane is particularly breathable and protects the foot from waterlogging through a microporous fabric structure. The membrane transports sweat and moisture to the outside. What remains is a pleasantly dry and comfortable foot feeling.

The name says it: FOOTGUARD – no ifs or buts.

Uncompromising protection and functionality under the toughest working conditions are clearly in the foreground.

An offer for connoisseurs - strong performance without frills.

- ✔ excellent fit due to the **ERGO last**
- ✔ strong profiled and self-cleaning
- ✔ shock absorbing element in the heel area
- ✔ athletic, slip and oil resistant
- ✔ flexible, lightweight and durable
- ✔ comfortable and breathable footbed

NORDIC HIGH // S3 SRC CI

Art. No. 63.183.1

Protection: steel toe cap and non-metallic, flexible FAP* midsole
Upper: grained waterrepellent leather

TREKKING SHOE THAT WON'T LET YOU
DOWN, EVEN AT WORK.

WORK & HIKE

TREKKING / OUTDOOR + OCCUPATIONAL AREAS ACCORDING TO O1 AND O2

SLIP RESISTANT XTS TRAIL SOLE

The easy-to-clean rubber outsole ensures perfect contact with the ground. It is non-slip and abrasion-proof and heat-resistant up to 300°C (HRO). The specially designed cleat profile and the wide flex grooves guarantee optimal flexion, optimize the water-displacing properties (windshield wiper effect) and provide a secure hold on a wide variety of surfaces.

IMPULSE.FOAM® MIDSOLE

The innovative IMPULSE.FOAM® midsole reacts to each of your steps with an energy impulse. IMPULSE.FOAM® offers everything: Maximum cushioning with optimum energy return as well as excellent stability and longlasting comfort.

EN ISO 20347:2012

All models are certified according to EN ISO 20347:2012 and have, among others, the following features: closed heel area, antistatic and energy absorption capacity in the heel area. Shoes of class O2 additionally have a waterresistant upper.

COMFIT® AIR FOOTBED

(Art. No. 20.475.0)

The extra comfort in your safety footwear. The newly developed, breathable ALBATROS comfit® AIR footbed has elevations in the heel and ball area of the foot as well as a support of the longitudinal arch. This helps the foot keeping its natural position in the shoe and stimulates the musculature while walking. The slip-resistant textile cover is odour-resistant, moisture absorbing and washable at 30°C.

FEATURES OF ALL STYLES

Extra: certified according to EN ISO 20347: 2012, comfortably-padded collar and dust tongue
Footbed: anatomically formed comfit® AIR footbed (Art.-No. 20.475.0) *except 65.251.0

Sole: XTS TRAIL - high quality, 300°C heat and slip resistant rubber outsole with IMPULSE.FOAM® midsole for optimal cushioning, stability and comfort

TRENTO CTX MID // O2 WR HRO SRC
 Art. No. 67.770.0

Upper: high-quality suede leather
Extra: functional lining with breathable and water resistant COA.TEX® membrane, closed dust tongue
Colour: taupe (440)
Sizes: 36 - 47

ISCHGL CTX MID // O2 WR HRO SRC
 Art. No. 67.758.0

Upper: high quality greased full leather
Extra: functional lining with breathable and water resistant COA.TEX® membrane, abrasion protection of rubber in the heel and toe area, closed dust tongue
Colour: black (200)
Sizes: 36 - 47

VIALE BLACK LOW // O1 HRO SRC
 Art. No. 65.443.0

Upper: microfiber
Extra: metal free, abrasion protection of TPU in the heel area, special fit and last in women's sizes 36-40
Colour: black (200)
Sizes: 36 - 47

BRIONE CTX MID // O2 WR HRO SRC
 Art. No. 67.777.0

Upper: high-quality greased full leather
Extra: functional lining with breathable and water resistant COA.TEX® membrane, closed dust tongue, smooth-running D-ring lacing
Sizes: 36 - 47

BRIONE CTX LOW // O2 WR HRO SRC
 Art. No. 65.447.0
Extra: metal free
Sizes: 39 - 47

SKYRUNNER BLACK LOW // O1 HRO SRC
 Art. No. 65.455.0

Upper: hard-wearing textile fabric with FITFRAME® elements (seamlessly-attached reinforcements)
Extra: metal free, breathable functional lining, extremely lightweight (400g)
Colour: black-grey (202)
Sizes: 39 - 47

NEW

ACADIA WNS LOW // O1 HRO SRC
 Art. No. 65.252.0

Upper: suede leather with breathable mesh inserts
Extra: abrasion protection in the heel and toe area
Colours: grey-pink (804), grey-blue (826)
Sizes: 36 - 42

VANTAGE CTX LOW // O2 WR HRO SRC
 Art. No. 65.441.0

Upper: leather with abrasion-resistant textile inserts and reflecting elements
Extra: according to EN ISO 20347:2012, functional lining with breathable and water resistant COA.TEX® membrane, closed dust tongue, comfortably padded collar and dust tongue
Footbed: anatomically formed comfit footbed
Sole: SPORT XTS - high quality, heat-resistant rubber sole with torsion protection unit for slip-resistant grip on various terrains
Colour: black (200)
Sizes: 39 - 46

DUAL.IMPULSE

LEISURE & WORK

LEISURE, SECURITY, GASTRONOMY, HEALTHCARE

1

SLIP RESISTANT OUTSOLE

The easy to clean rubber outsole ensures perfect ground contact. It is non-slip and abrasion resistant as well as heatresistant up to 300°C (HRO). The specially designed cleat profile and the wide flex grooves guarantee optimum flexion, optimize the water-displacing properties (windscreen wiper effect) and provide firm grip on a wide variety of grounds.

2

DUAL.IMPULSE MIDSOLE

The intelligent midsole made of IMPULSE.FOAM® reacts to every step with an energy impulse. As a result, the IMPULSE.FOAM® not only returns up to 55% of the energy, but also ensures maximum cushioning, excellent stability and long-lasting comfort.

3

SAFETY KNIT

The highly flexible, breathable textile fabric adapts perfectly to your foot and fits seamlessly like a sock. It gives you optimal support, is super light and ultra durable at the same time.

EN ISO 20347:2012

All models are certified according to EN ISO 20347:2012 and have, among others, the following features: closed heel area, antistatic and energy absorption capacity in the heel area. Shoes of class O2 additionally have a waterresistant upper.

COMFORT FOOTBED

The anatomically shaped footbed provides optimal cushioning with every step. The specially designed arch support enables the foot to be naturally positioned in the shoe and stimulates the muscles when walking.

FEATURES OF ALL STYLES

Extra: ESD, metal free, breathable functional lining, comfortably-padded collar and dust tongue
Footbed: cushioning, breathable comfort footbed

Sole: DUAL.IMPULSE - 300°C heat resistant, slip resistant rubber outsole with midsole of IMPULSE.FOAM® in two different densities for maximum cushioning, stability and comfort

1. MIDSOLE IMPULSE.FOAM® STABILITY
2. MIDSOLE IMPULSE.FOAM® CUSHIONING
3. OUTSOLE SLIP, HEAT AND OIL RESISTANT

LIGHTWEIGHT AND ROBUST
TREKKING

OFFROAD SUCH AS FOREST, MOUNTAINS, MEADOWS AND OTHER NATURAL LANDSCAPES

1

**SLIP RESISTANT
OUTSOLE**

A low weight and best grip on a wide variety of grounds characterize this due to its sole pattern with wide flex grooves extremely flexible PU sole.

2

**CUSHIONING
MIDSOLE**

A soft PU midsole optimally cushions the high impacts when walking and combines perfect stability and flexibility.

3

**BREATHABLE
TEXTILE INSERTS**

Abrasion resistant, quick drying textile inserts ensure more breathability and improve the wearing comfort.

4

**ABRASION
PROTECTION**

The abrasion resistant toe cap and heel area protect the shoes from scrapes and bumps.

COA.TEX® MEMBRANE

The durable, water resistant and windproof high-tech membrane is particularly breathable and protects the foot from waterlogging through a microporous fabric structure. The membrane transports sweat and moisture to the outside. What remains is a pleasantly dry and comfortable foot feeling.

FEATURES OF ALL STYLES

Extra: functional lining with breathable and water resistant COA.TEX® membrane

Footbed: anatomically formed, removable footbed
Sole: profiled, slip resistant PU sole

NEW

HÖFEN CTX MID

Extra: short bootleg, lining 95% polyester and 5% elastic fabric
Sole: slip-resistant and profiled outsole resistant to liquid manure, chalk, cement, fuel, bases, oils, fat and to a high extent against acids
Colour: green (600) - Art. No. 56.402.0
Colour: black (200) - Art. No. 56.404.0
Sizes: 36 - 48

NITRILE RUBBER

- ALBATROS® professional boots made of nitrile rubber
- are free from cadmium, plumb and barium
 - have a low chlorine content to protect the environment
 - are extremely flexible at cold temperatures and tolerate high and low temperatures (+/-30°C)

Upper and sole are resistant to

- mineral oil
- animal and vegetable fat
- petrochemicals, bitumen, casein, blood
- ammonia, diluted acids and alkalis

These boots have an improved energy absorption in the heel area and an abrasion and slip-resistant cleated outsole with shock absorbing heel.

NATURAL RUBBER

The rubber tree (*Hevea brasiliensis*) originates from the tropical Amazonas. The excellent quality features - **suppleness, resistance and waterproofness** - are due to the features of this natural elastic material of the ALBATROS® rubber boots to a great part. The ability to maintain these features even at low temperatures, make the natural rubber to an effective moisture protection for each season.

INDIVIDUAL CUSTOMIZABLE

Infinitely adjustable leg width through closure buckle.

WATERPROOF

Protects reliably against water.

FLEXIBLE

The soft material is flexible even at low temperatures and adapts to the walking motion.

INSULATING

Stores and maintains body warmth in the comfort temperature range.

WATERPROOF UNDER EVERY CONDITION

Sizes: 36 - 47

COMFIT®RELAX // MEMORY FOAM FOOTBED

Art. No. 20.480.0

- due to its reaction to body heat the thermo-foam adapts perfectly and offers an optimal pressure distribution over the whole foot
- breathable
- shock-absorbing elevations in the heel and ball of the foot
- longitudinal arch support supports the natural posture of the foot in the shoe and stimulates the muscles when walking
- slip resistant textile upper, odor resistant, moisture absorbing
- perfect cushioning
- washable up to 30°C
- recommended for ALBATROS® safety and occupational footwear

Colour: red (500)
Sizes: 39 - 47

CUSTOM FIT

COMFORT INSOLE WITH MULTIPLE-WIDTH SYSTEM

Developed by orthopedic shoemaker for safety, work & leisure footwear. Thanks to the various shapes of the arch support, the shoe optimally adapts to the needs of the wearer's feet, relieves the joints and stimulates the muscles.

SUPPORTING

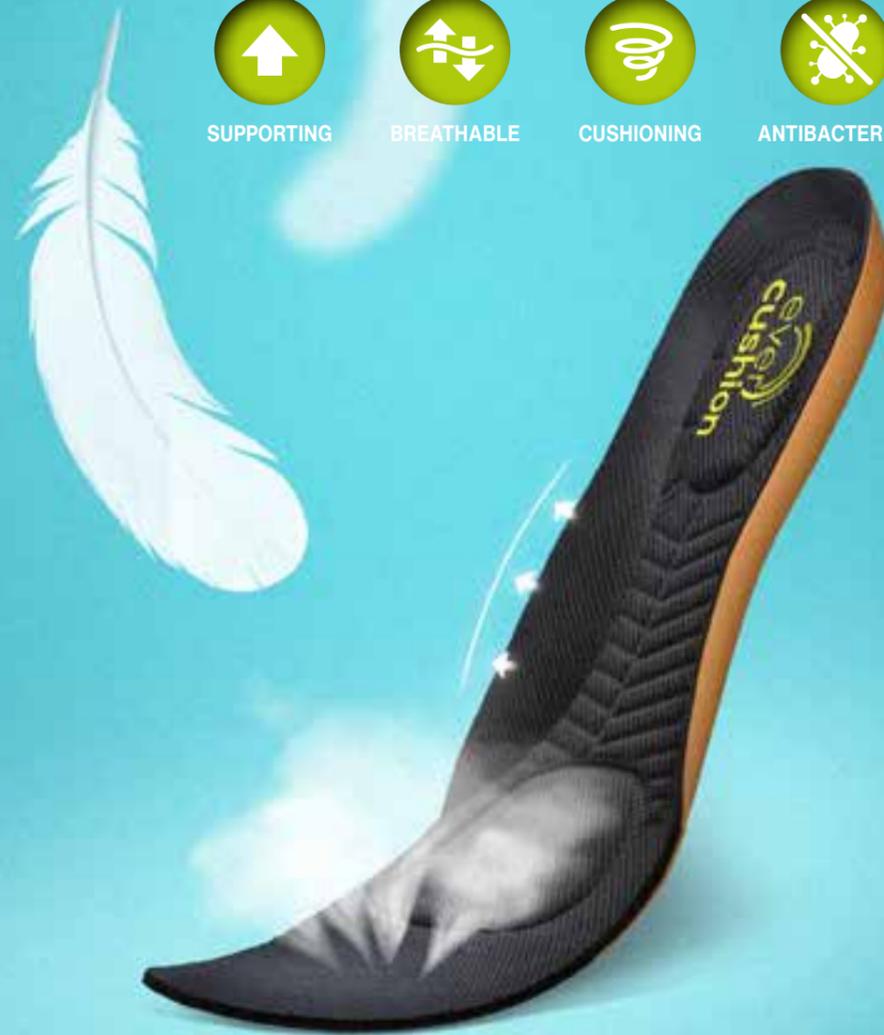

BREATHABLE

CUSHIONING

ANTIBACTERIAL

HYPRO ODOR CONTROL® combats the causes of unpleasant smells. This means that coated surfaces stay fresh and protected for longer.

CUSTOM FIT LOW

Slightly pronounced, flat arch support for people with flat feet or fallen arches.

CUSTOM FIT MID

Common arch support for normal feet.

CUSTOM FIT HIGH

Strong, high arch support for people with narrow or hollow feet.

ICONS TEXTILE AND FOOTWEAR SYMBOLS

ALL YEAR ARTICLES

This article can be worn in summer and winter. In the textile range some articles are true masters of transformation and can be worn as a light jacket as well as a waistcoat due to the detachable, soft lining.

BREATHABLE

Thanks to special upper fabrics, like e.g. Softshell or processing, the article is breathable.

WINDPROOF

Thanks to special upper fabrics, like e.g. PU-Coating or processing, the article is windproof.

LEIGHTWEIGHT

Special materials and their processing make this article particularly easy. The result is an even higher level of comfort.

QUICK LOCK

The precisely adjustable twist lock of the QUICK LOCK lacing system is as simple as it is ingenious. If you pull on the fastener, the laces come loose. Another advantage - operable with gloves.

METAL-FREE

Sometimes it has to be a completely metal-free shoe. Our fiberglass toe cap and composite fiber midsole are even better, lighter and more flexible than steel.

CERTIFIED UNDER DGVU 112-191

Professional association guideline for the orthopedic adjustment (insoles) of safety shoes, according to which it must be checked whether the shoe continues to meet the requirements of the EN ISO 20345 standard.

WINDRESISTANT

Thanks to special upper fabrics, like e.g. Softshell or processing, the article is wind-resistant.

WATER RESISTANT

Thanks to special upper fabrics, like e.g. Softshell or processing, the article is waterresistant.

WATERPROOF

Thanks to special upper fabrics, like e.g. PU-Coating or processing the article is waterproof.

STEEL TOE CAP

Protects the toes against compression through falling objects.

SLIP RESISTANCE

Slip resistance of category SRA: on clay tile surface which has been lubricated with a wetting agent (Sodium Laurel Sulphate)
SRB: stainless steel surface which has been lubricated with glycerol.
SRC: Category SRA and SRB.

ESD

ESD-compatible safety shoes must be worn if electrostatic charge has to be reduced by dissipation. This is the case, for example, when working with sensitive electronic components that could be damaged or destroyed by electrostatic discharge.

FOR LADIES ONLY

A more fitted shape and stylish details make these articles to the perfect companion for every woman.

UNISEX

These items have a special fit and last, respecially in size 36-40 for ladies.

VEGAN

The article was manufactured without using any animal products.

TOE CAP OF COMPOSITE/ FIBERGLASS

Highly resistant toe cap of fiberglass reinforced synthetic material. Excellent corrosion behaviour, good electrical and thermal insulation effect and antimagnetic.

4D STRETCH

Moves with you everywhere, no matter if horizontally or vertically. You always have optimal freedom of movement.

REVERSIBLE

The clou - two garments in one. Due to different upper materials and colors you get a new look or even a new function.

REMOVABLE SLEEVES

Removable sleeves, thus wearable as a vest as well.

TWO-WAY ZIPPER

Practical variety of a zipper. Due to the two zipper puller the zipper can be opened and closed from both sides.

EASY TO EMBROIDER

Due to a zipper in the lining a print or embroidery can easly be added subsequently to the back.

MOBILE POCKET

Special mobile pocket inside or outside.

SOFTSHELL

Softshell jackets are real all-round talents. They keep off the rain, protect against wind and are at the same time breathable, comfortable and insensitive. Our 3-layered softshell laminate is windproof, waterproof and breathable. A high freedom of movement guarantees the high elasticity.

FLEECE & KNITTED FLEECE

Fleece fabrics offer many functions and thus comfort and are the ideal companion in professional and everyday life. Knitted fleece is the perfect combination of functionality, softness and an urban look! Made to look like a cardigan on the outside, the softly roughened fleece inside offers an optimal thermal insulation and ensures an optimal body climate.

NATURAL RUBBER

The ALBATROS® natural rubber boots largely owe the outstanding quality features - suppleness, resistance and waterproofness - to the properties of this naturally elastic material. The ability to maintain these properties even at low temperatures makes natural rubber an effective moisture protection for every season of the year.

COOL DRY FINISH

Thanks to the Cool-Dry finish, moisture is quickly transported away from the body and ensures a pleasant wearing comfort. The shirt dries quickly, is breathable and thus perfect for all activities.

COLD-ISOLATING / CI

This article keeps you warm in cold temperatures.

BIG SIZES

Also for big guys. From size 4XL an article is allowed to be characterized with this icon.

FOR HIGHLY COMFORTABLE WEARING MATERIALS

INNOVATIONS FOR MAXIMUM COMFORT

TECHNOLOGIES

COA.TEX® MEMBRANE

The long lasting, water-repellent and wind-resistant hi-tech membrane is particularly breathable and protects the foot with a micro-porous mesh structure against waterlogging. It transports sweat and moisture to the outside. What remains is a delightful dry and comfortable body sensation.

CORDURA

The durable high-performance fabric offers extreme durability and maximum comfort. The permanently dimensionally stable material is water and dirt repellent and serves to reinforce particularly stressed areas of shoes and clothing. CORDURA® is a high-tech fabric made of particularly abrasion-resistant nylon.

THINSULATE

The Thinsulate fibers are thinner than usual polyester fibers, so they offer a high level of heat insulation, while sweat and moisture will be transported to the outside. Therefore the body will be kept warm and dry during cold days.

XTS SOLE

Our XTS sole is made out of a special rubber compound. Therefore, it is particularly durable, absorption-active, heatresistant up to 300°C (HRO) and slipresistant (SRC). The differently formed and especially arranged profile elements offer support and surefootedness on every ground and have selfcleaning properties. Furthermore, the sole is oil and fuel resistant as well as antistatic.

IMPULSE FOAM®

The intelligent midsole made of IMPULSE.FOAM® reacts to every step with an energy impulse. As a result, the IMPULSE.FOAM® not only returns up to 55% of the energy, but also ensures maximum cushioning, excellent stability and long-lasting comfort.

NEW

PWR BEADS®

The already very cushioning PWR BEADS® are literally baked together to form one element during the production process. Together they achieve an excellent energy return of 58%.

50%
LEICHTER

DURABLE

Extremely high wear resistance thanks to the special fiber structure.

COMFORTABLE

More flexible with better cushioning and compressive elasticity.

BREATHABLE

Cooling effect through breathability and sweat absorption.

PWR BEADS®

+58 %

ACTIVE ENERGY RETURN

42% LESS JOINTS IMPACT

* Dynamic energy absorption reduces the impact to 1.74 kN. The average for safety shoes is 3.0 kN.

FITFRAME

Innovative designs, high functionality and a low weight - with FITFRAME® no problem. Seamlessly welded reinforcements combined with breathable textiles ensure maximum breathability and comfort. There is a high flexibility, as there are no seams in flex areas. Furthermore, FITFRAME® means high resistance, an adaptable, perfect fit, more stability and support. The small weight also offers a delightful wearing comfort.

SAFETY KNIT®

The highly flexible, breathable textile fabric adapts perfectly to your foot and fits seamlessly like a sock. It gives you optimal support, is super light and ultra durable at the same time.

TRIPLE DENSITY

The interplay of different degrees of cushioning of the sole components protects bones, joints and muscles, increases energy return and ensures excellent stability.

FAP® - FLEXIBLE ANTI-PENETRATION

FAP® is a non-metallic material for safety footwear made of multiple textile layers of extremely tearproof fibers. The FAP® midsole offers greater comfort, flexibility, cold insulation, humidity absorption and shock absorption to the wearer.

FAP®LITE - FLEXIBLE ANTI-PENETRATION

The latest generation of metal-free penetration protections:

- 50% lighter
- very high flexibility
- better cushioning and pressure elasticity
- cooling effect through breathability and sweat absorption

FAP®GREEN - FLEXIBLE ANTI-PENETRATION

The latest generation of metal-free penetration protections:

- environmentally friendly
- tear-resistant textile fibers made from PET bottles
- metal free, comfortable and flexible
- cold-insulating with a high level of moisture absorption

STANDARDS AND SAFETY CLASSES

SAFETY STANDARDS

EN ISO 20345:2011

Safety footwear with toe caps tested for protection against 200 Joules impact and 15.000 Newton compression.

BASIC REQUIREMENTS

e.g. concerning tear strength and water-repellent properties of the upper as well as substance, tear strength, abrasion resistance, resistance to flex cracking and oil resistance of the outsole. Can be with open seat region (Safety Basic - SB)

EN ISO 20347:2012

Sicherheitsschuhe ohne Zehenschutzkappe.

BASIC REQUIREMENTS

e.g. concerning tear strength and water-repellent properties of the upper as well as substance, tear strength, abrasion resistance, resistance to flex cracking the outsole. Can be with open seat region. (Occupational Basic - OB)

SAFETY FOOTWEAR

(Classification 1, shoes made of leather and other materials)

Appropriate for use in **DRY AREAS**:

SAFETY CLASS S1

Additionally to the basic requirements closed heel area, antistatic, energy absorption of the heel area, fuel and oil-resistant outsole.

SAFETY CLASS S1P

as S1, additionally penetration resistant midsole.

Appropriate for use in **WET AREAS**:

SAFETY CLASS S2

as S1, additionally water resistant properties of the upper.

SAFETY CLASS S3

as S2, additionally penetration resistant midsole and cleated outsole.

SAFETY BOOT

(Classification 2, shoes made of full rubber or polymer shoes)

SAFETY CLASS S4

Additionally to the basic requirements antistatic, energy absorption of the heel area.

SAFETY CLASS S5

as S4, additionally with penetration resistant midsole and cleated outsole.

OCCUPATIONAL FOOTWEAR

Appropriate for use in **DRY AREAS**:

SAFETY CLASS O1

as OB, additionally closed heel area, antistatic, energy absorption of the heel area.

Appropriate for use in **WET AREAS**:

SAFETY CLASS O2

as O1, additionally water resistant properties.

ORTHOPEDIC INSOLES

DGUV 112-191

In the ALBATROS collection you will find various models which are certified according to DGUV 112-191 for the most frequently required orthopedic measures and which comply with the requirements of DIN EN ISO 20345. These safety shoes can easily be adapted to the individual situation of the wearer at an authorized orthopedic chimney or medical supply store - without loss of protective functionality.

The orthopedic components for the dressing are provided by the orthopedic shoemaker or the medical supply store at our partner **Matthias Hartmann Orthopädie + Sport GmbH**. More information is available at albatros-work.de.

1 CUSHIONING SOLE

- high electrical conductivity
- ESD suitable
- high wearing comfort
- abrasion resistant

2 SHOCK ABSORBER

- reduces the impact force
- permanently elastic
- pressure distribution

3 INSERTS ELEMENT

- high electrical conductivity
- pressure distribution

DESIGN & DEVELOPMENT

TESTED IN LABORATORY - PROVED IN PRACTICE

INNOVATIVE TECHNOLOGY AS A BENCHMARK

Innovative technologies and high quality materials combined with our years of experience serve as the basis for the manufacture of our ALBATROS® products.

An international PSA (personal protection equipment) team actively accompanies the manufacturing and manufacturing of our products and uses our modern ALBATROS® CIP (Continuous Improvement Program) program in factories to leverage advanced production control.

Our employees in product development and product management work closely with research centers and universities to ensure quality, performance-based protective functions and the best materials.

Design and development from Germany.

DESIGN - POWERED BY FUNCTION

We design and develop our ALBATROS® products according to the needs of their wearers. The concepts for safety shoes, workwear and outdoor equipment not only originate in Germany but worldwide according to our specifications.

Inspirations for new products are bundled centrally and the best ideas find the way to get as a product to the ALBATROS® specialist dealers.

Impulses through trade fair visits, trade congresses and design tenders complete the pool of new possibilities and creations.

Design follows function - according to this principle, all the characteristics of a product are set tailor-made. Because quality has been our priority for decades and is based on the high standard of our customers.

HIGHEST QUALITY CLAIMS AS A PERFORMANCE PROMISE

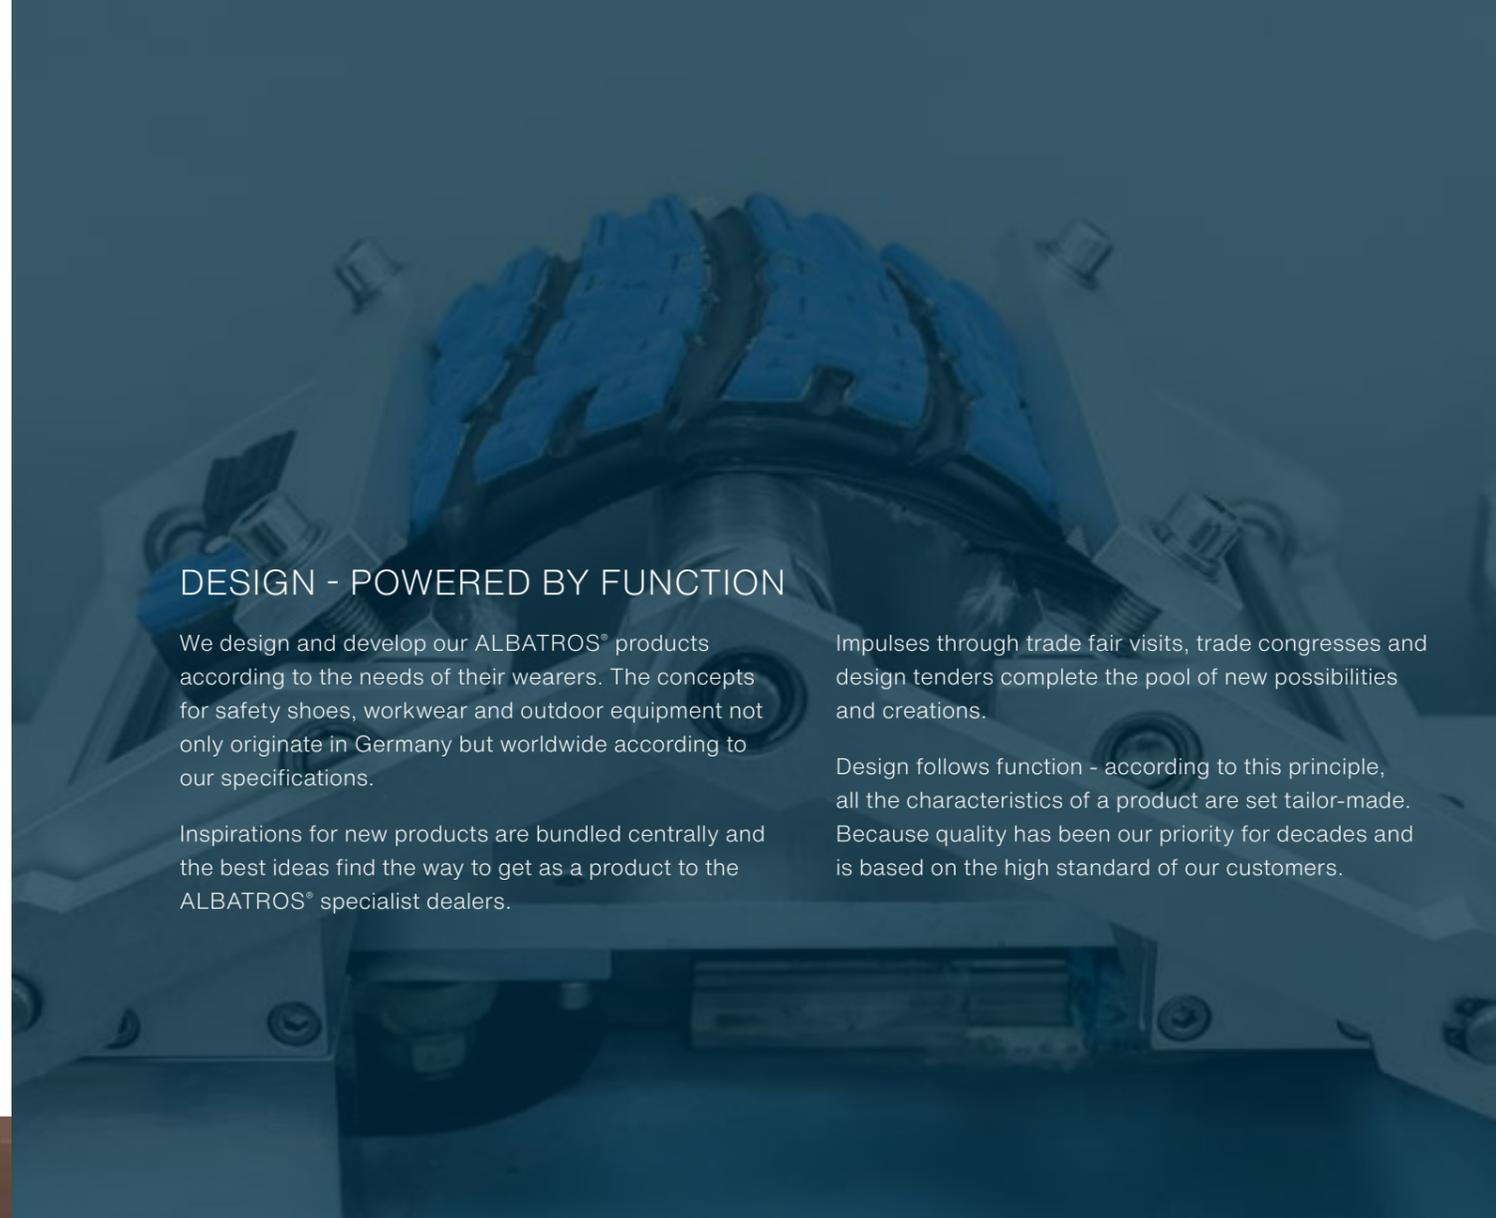

The success of ALBATROS® is based on a complete quality management. Our quality team continuously monitors the development process of ALBATROS® products.

From the selection of materials through the production processes to the optimization of the delivery quality. Inspections and audits by us and our partners ensure permanent and sustainable product and production improvements.

Trainings and trainings according to international standards ensure a constant optimization of the controls both at the production sites and at our headquarters in Lippstadt.

All our products are tested externally, in recognized testing institutes, as well as in the company's own laboratory. There are strict controls in terms of compliance with the safety and quality characteristics.

We do not accept compromises!

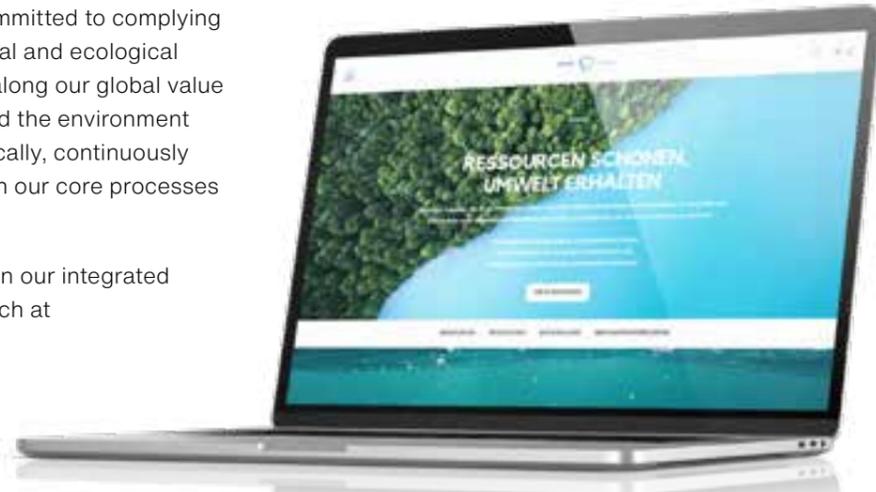

SUSTAINABILITY

RESPONSIBILITY FOR PEOPLE AND THE ENVIRONMENT

SUSTAINABILITY IS NOT A TREND FOR US, BUT A PROCESS

As an owner-managed family company with global economic relationships, we are committed to complying with applicable law, observing social and ecological standards and acting sustainably along our global value chain. Responsibility for people and the environment is consistently implemented holistically, continuously improved and is deeply anchored in our core processes and products.

You can find detailed information on our integrated sustainability management approach at ism-europa.de/ism-better-world

ACTING ECONOMICALLY SUSTAINABLE

In terms of responsible and sustainable corporate management, we are committed to a fair and resource-saving global economy. We act responsibly in our core business and, as an expanding, healthy company, make our contribution to the implementation of the UN sustainability goals.

- ✓ We develop innovations and use our brands as accelerators for positive change
- ✓ We take responsibility for the effects of our actions on others and for our ecological footprint
- ✓ We do not limit ourselves to specific sustainability areas and drive improvements in all areas in which we are active
- ✓ Together with our partners, we find solutions to challenges that we cannot master alone
- ✓ In everything we remain authentic, admit when we do not meet our own expectations and adjust expectations and goals when we have achieved them or achieve them earlier than planned

ECOVADIS: SILVER MEDAL FOR ISM

ISM was awarded the EcoVadis Silver Medal for its comprehensive sustainability efforts in the areas of environment, labor and human rights, ethics and sustainable procurement, ranking among the 25 percent of top performers assessed by EcoVadis.

EcoVadis evaluates companies on the basis of international sustainability standards in an evidence-based and independent manner, monitored by a scientific panel of CSR supply chain experts.

VIEW ONLINE

CONSERVE RESOURCES, PRESERVE THE ENVIRONMENT

How valuable the natural resources are we certainly do not have to go into further detail.

The economical and efficient use of resources is, of course, our corporate responsibility.

A clear commitment and a good strategy firmly anchor the responsible handling of this limited good in our processes and products.

PRODUCING MORE SUSTAINABLY

We manufacture our products in partner companies in Europe and Asia. This enables us to offer several thousand people long-term employment.

We often have a long-term, trusting cooperation with our production partners. We select them carefully from the start and place high demands on social and environmental standards.

Together we work on challenges that you cannot master on your own and we support you in meeting our standards - also and especially with regard to responsible handling of the environment.

THREE STRONG BRANDS

UNDER ONE ROOF.

THREE BRANDS - ONE COMMON GOAL

Each of our brands has its own strategic focus and individual character. But they all have one thing in common: they all stand for tested safety, innovative technologies and modern design. Our goal was, is and remains to meet the high demands of our customers for maximum safety and quality. Discover the world of ALBATROS, PUMA SAFETY and FOOTGUARD and experience SAFETY SHOES, WORK & OUTDOOR FASHION at a real professional level.

ALBATROS

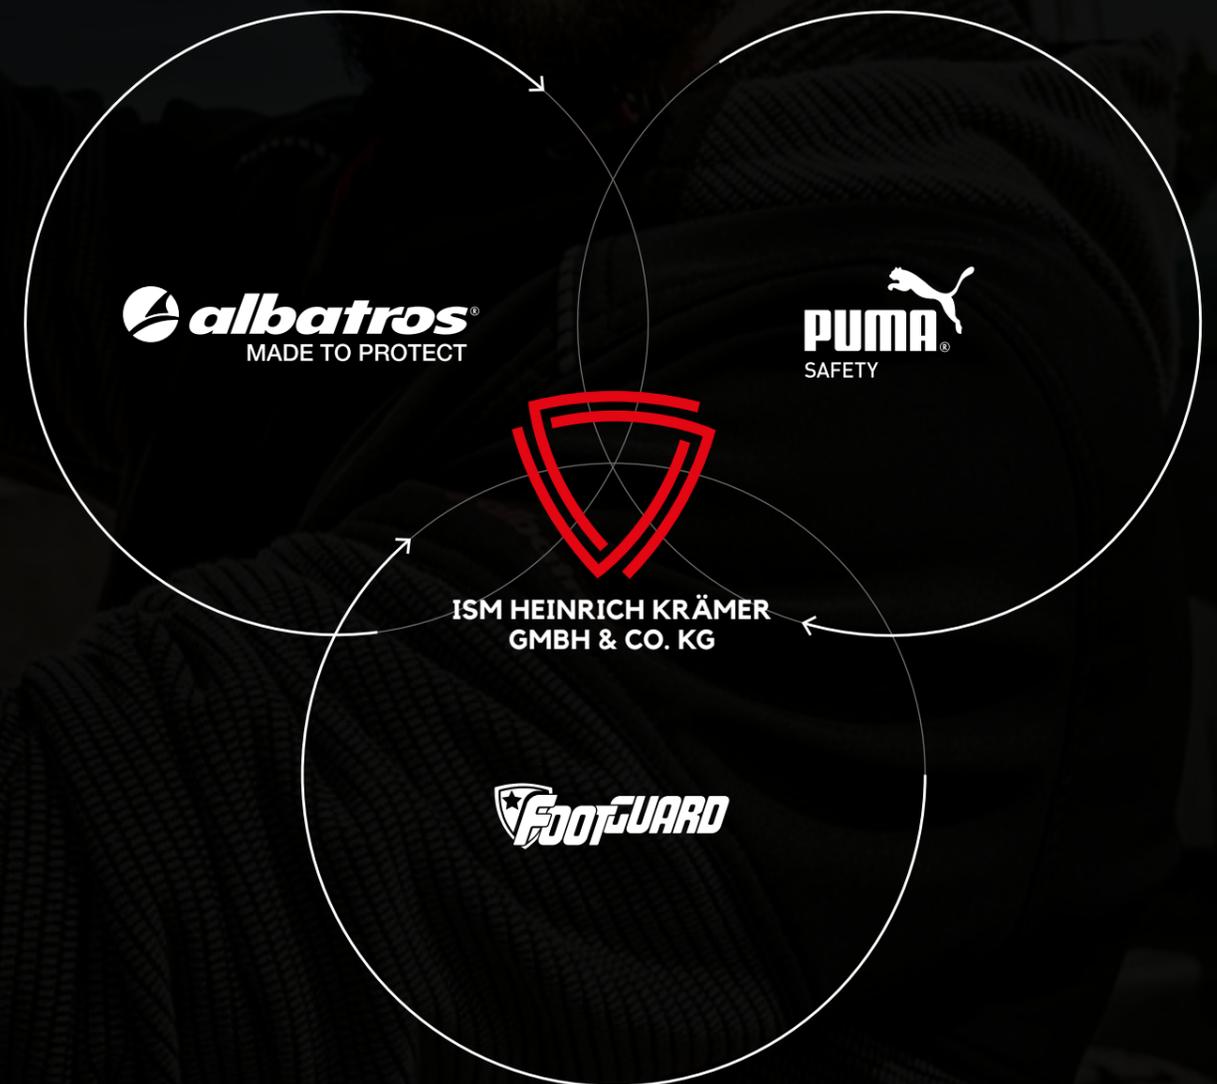

ALBATROS is one of the leading German brands in the field of performance safety shoes as well as work and outdoor fashion. All ALBATROS articles are designed and developed by an international team of experts in Germany. For more than 40 years, ALBATROS has continuously improved quality, comfort, functionality and design. With one goal: to support professionals every day in successfully mastering their challenges! ALBATROS product categories: work and outdoor fashion, work clothing, rainwear, accessories, safety shoes, occupational and trekking shoes, boots.

PUMA SAFETY

As one of the leading sports brands in the world, PUMA is on the field with the fastest athletes in the world. That is why the PUMA brand is based on values that turn athletes into top athletes. We share these values and have been developing sporty high-performance safety shoes under the name PUMA SAFETY in collaboration with PUMA since 2002. PUMA SAFETY is one of the fastest growing brands in the safety shoe category internationally.

FOOTGUARD

With FOOTGUARD safety shoes, the name says it all - no ifs or buts. Uncompromising protection and functionality under the toughest working conditions are clearly in the foreground. An offer for connoisseurs - strong performance without a lot of frills.

ISM B2B PORTAL

AT YOUR SERVICE AROUND THE CLOCK.

Enter your order quickly and easily via the new ISM B2B portal. You can access the portal via the following link:

 <https://b2b.ism-europa.de>

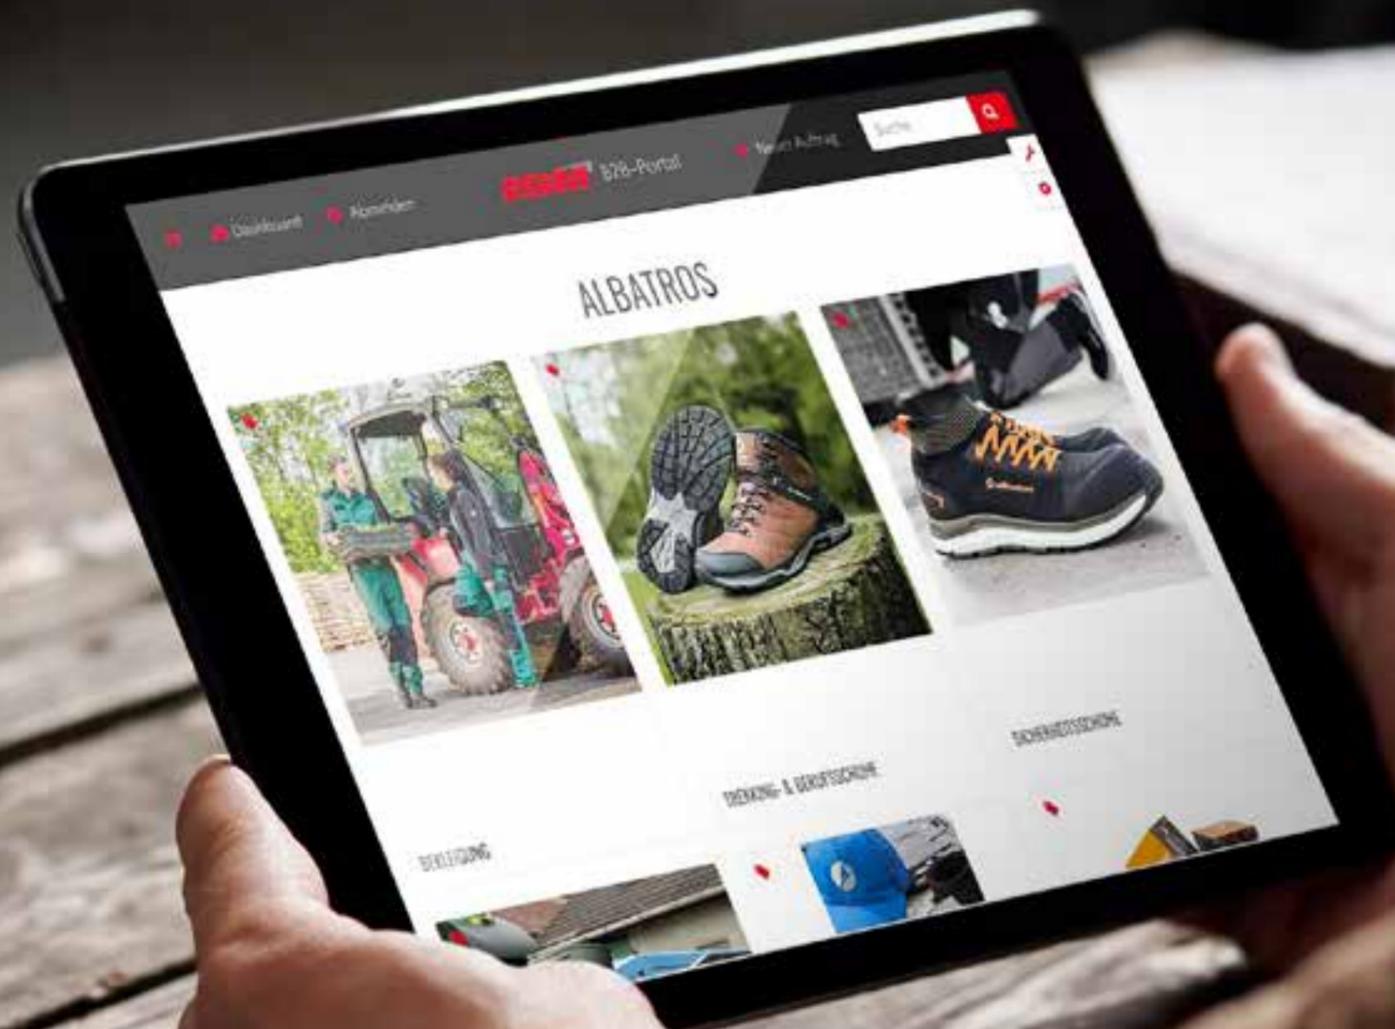

IT'S THAT EASY

- 1 Register (<https://b2b.ism-europa.de>)
- 2 Fill the shopping cart
- 3 Submit your Order

You don't have your access data yet? Then contact info@ism-europa.de.

THESE ARE YOUR ADVANTAGES

- the portal is available to you 24/7 as an information system
- greater variety of products without additional storage costs
- you have access to the live stock
- transparentes Preissystem
- transparent pricing system
- simple and fast order processing
- you can call up your customer account and your receipts at any time and see the status of your current order
